

FLORIDA VIRTUAL SCHOOL STUDENTS OUTPERFORM ON ACT:

Our Students Outperformed State
and National ACT Scores in 2021-22

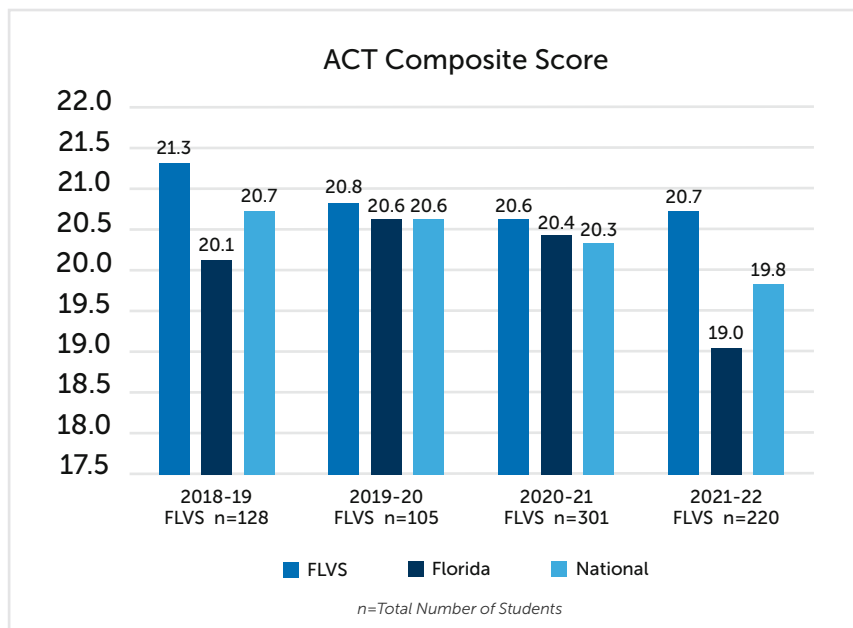

Composite Score Trends

Despite national ACT scores falling below 20 out of 36, high school students enrolled full-time at Florida Virtual School (FLVS), a fully accredited Kindergarten through 12th grade statewide public school district, are still outperforming national and statewide trends. On average, **FLVS high school students scored 0.9 points higher than students nationwide and 1.7 points higher than students across Florida in 2021-22.**

ACT reports that the national average composite score for its college admissions exam was 19.8 out of 36 in 2021-22. This was the first time since 1991 that the average dipped below a score of 20. Since 2018-19, the national average has decreased by nearly 1 point, and the Florida average has decreased by 1.1 points.

Figure 1 shows that FLVS high school students outperformed their counterparts at the state and national levels with a decrease of just 0.6 points between 2018-19 and 2021-22.

Figure 1: Composite ACT Scores from 2018-19 to 2021-22

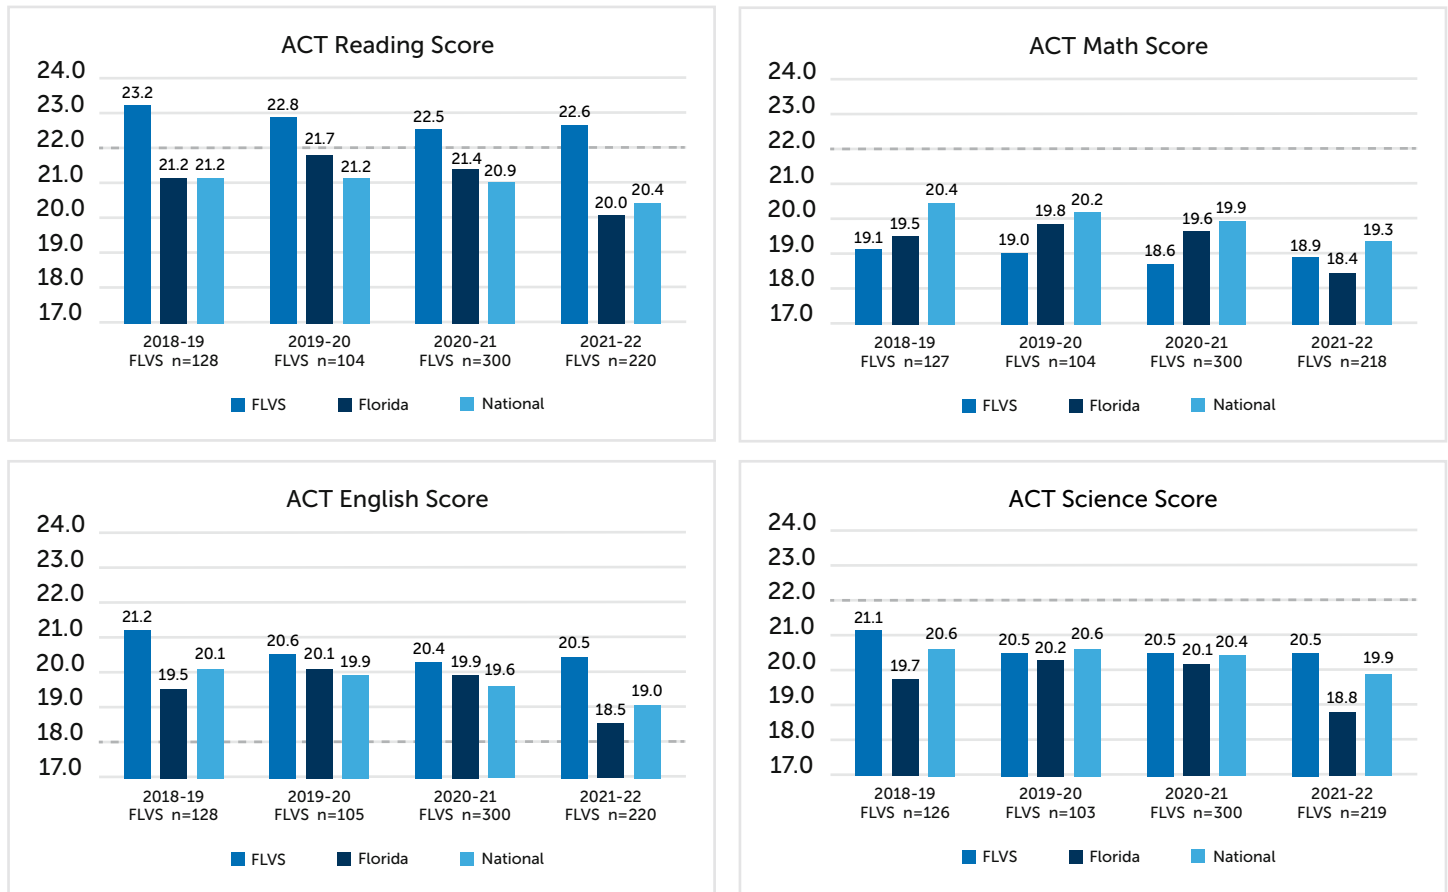

Key Points

- From 2018-19 to 2021-22, FLVS had a smaller decrease in the average composite score (-0.6) as compared to state (-1.1) and national (-0.9) averages.
- On average, FLVS Full Time High School students scored 1.7 points higher than students across Florida in 2021-22.
- On average, FLVS Full Time High School students scored 0.9 points higher than students nationwide in 2021-22.
- Since 2018-19, the number of students taking the ACT nationwide has declined by 30%, whereas the number of FLVS high school students taking the exam has increased by nearly 70%.
- Despite national scores falling below 20 out of 36, FLVS Full Time High School students are still performing above average.

Subject Area Score Trends

In addition to average composite scores being at a 30-year low nationally, ACT reported that 42% of ACT-tested high school graduates did not meet the scoring benchmarks for any subject area in 2021-22. These benchmarks represent the minimum score necessary for probable success in college courses. FLVS Full Time High School students have consistently scored higher than the benchmarks each year since 2018-19 in Reading and English. Although FLVS Full Time High School students' Math and Science scores are lower than the benchmarks, the scores have remained stable over time.

n=Total Number of Students

Dashed line on graph represents the benchmark score for college readiness.

Key Points

- FLVS Full Time High School students scored higher than the state across all subject areas for the first time in 2021-22.
- On average, FLVS Full Time High School students have scored well above the college readiness benchmarks for Reading and English every year. Historically, FLVS Full Time High School students have scored higher than state and national averages in Reading and English.
- FLVS Full Time High School students outperformed the state average in Reading by 2.6 points and English by 2 points in 2021-22. Similarly, FLVS Full Time students outperformed the national average in both subjects, surpassing the national average in Reading by 2.2 points and English by 1.5 points.
